Workplace Overview

Policies & Strategies

Employer policies or strategies on workplace gender equality and the composition of the workforce can be powerful levers for making progress and change. Helia is dedicated to fostering an inclusive and diverse workplace environment, striving to

eliminate barriers to gender equality. Formerly known as Genworth, Helia has been awarded with the WGEA Employer of Choice for Gender Equality citation for eleven consecutive years. This achievement underscores the organisation's enduring commitment to equal employment opportunities and gender balance across recruitment, development and talent management. Helia remains committed to advancing gender equality, with women now representing 57% of the Board. We are also making great progress towards our goal of 40% female representation on the Senior Leadership Team, currently at 37.5%. Additionally, we are proud of our continued efforts to significantly reduce the gender pay gap. The Diversity, Equity, and Inclusion Strategy for 2024-2025 outlines Helia's targets, including maintaining women in senior management at greater than 40% and reducing the gender pay equity gap to below 6.5%. During the reporting period, Helia has continued to prioritise leadership development through a range of programs. These include executive leadership development, diversity training for leaders focused on advancing their interpersonal skills and strategies for recognising power, influence and effective allyship. Helia also fosters a psychologically safe workplace, promoting awareness of unconscious bias and its impact on leadership. Programs emphasise building respectful, safe relationships and advocating for team members. Additionally, tailored programs such as Emerging Leaders, Executive Presence and Gravitas with AGSM and Developing Female Leaders, further reinforce Helia's commitment to enhancing leadership capabilities and empowering individuals to lead with impact. Regular discussions within the Senior Leadership Team focus on identifying employees with leadership potential, assessing readiness and implementing key development initiatives such as exposure opportunities, stretch assignments and mentorship programs to support career advancement. The organisation remains committed to gender equality, with women currently holding 35% of management roles, just shy of our 40% target. We continue to make strong strides toward achieving this goal, while also maintaining our focus on reducing the gender pay gap. The 2023-2024 WGEA Gender Equality report, saw Helia achieving -3.4% (average total remuneration), marking another significant milestone in its pursuit of gender equality. Although we have not marked 'yes' for increasing the number of women in male-dominated roles and men in female-dominated roles, our recruitment strategy includes goals to achieve a gender-balanced shortlisting for all vacant roles, ensuring equal representation throughout the recruitment process. At Helia, we do not set specific targets for men taking parental leave as we actively encourage all our staff to take advantage of this benefit. In 2022, we removed the distinction between "primary" and "secondary" carers to be more inclusive and to further promote the utilisation of parental leave. During the 2024-2025 period, five male employees took either paid or unpaid parental leave.

Gender Pay Gaps

The gender pay gap is the difference in average or median earnings between women and men. It is a measure of how we value the contribution of women and men in the workforce. The gender pay gap is not to be confused with women and men being paid the same for the same, or comparable, job – this is equal pay. Equal pay for equal work is a legal requirement in Australia. However, illegal instances of unequal pay can still be one of the many drivers of the gender pay gap. Closing the gender pay gap is important for Australia's economic future and reflects our aspiration to be an equal and fair society for all.

Helia's Remuneration strategy is a commitment to fair and equitable remuneration practices with a responsibility to achieving pay equity in all roles on a like-for-like basis (comparing equal or comparable jobs). As part of the annual review process, Helia performs comprehensive reviews and reporting of gender performance and pay equity outcomes. The 2024 annual review of performance and remuneration focused on the following:

- Addressing male and female compa-ratio to ensure they are paid at or above the median in the market relative to their skills and experience.
- Parity of base salary increases allocated for males and females on a like-for like basis.
- Analysis of short-term incentive outcomes by gender, ensuring gender impartiality and absence of unconscious bias in the evaluation process for individuals with similar performance ratings on a like-for-like basis.

Our ongoing commitment to championing gender equality has resulted in 35% women in management, positioning us well on track to reaching our 40% target. The 2023-2024 WGEA Equality Report highlighted a gender pay gap of -3.4%, a significant reduction from 8% in 2022-2023, marking our achievement of pay parity.

Employee Support for Parents and Carers

Paid Parental Leave

Parental leave policies are designed to support and protect working parents around the time of childbirth or adoption of a child and when children are young. It's important that it's a policy that's available to all parents, irrespective of gender, ¹³recognising the equally important role of all parents in caregiving.
